

“ORIGINALS”

SONGS & RECORDINGS

With Gareth Davies-Jones

Ever thought of having an original song commissioned, written, performed and recorded ?

- ❖ to celebrate or mark a special occasion
- ❖ capture a special memory,
- ❖ pay tribute to a special person or place,
- ❖ as a gift for someone
- ❖ or just to explore your own creativity ?

Then “ORIGINALS” is for you.

EXPERIENCE & CREDENTIALS

I've been writing, recording, producing and performing as a professional musician for over 18 years.

With a wealth of experience in the independent music industry and a successful track record of commercially releasing and touring my own albums I'm well placed to guide you through the creative songwriting process.

“ORIGINALS” gathers all of this experience together as you tell me your story and I work to write and produce a professional song from the ideas we've shared.

THE PROCESS

From end to end the virtual process is all about capturing your story and translating it into music. Starting with a fun and enjoyable online meeting, we'll gather ideas together which I'll then refine into the outline of the song. After approving a basic demo the decision is then how you want it to sound. Options range with your budget from a stripped back vocal and guitar version, through to a 'full' sound arrangement with additional musicians. Every track will benefit from my distinctive acoustic style and guitar collection !

EXCITING EXTRAS

Streaming: If you want friends/family/colleagues to easily hear the finished song, I can arrange for it to be released to any of the major streaming platforms such as Spotify or AppleMusic.

Physical Product: If you'd like a version of your song physically pressed to CD, Vinyl or even Cassette Tape then I can also arrange this.

Session Musicians: If there's a particular sound you're looking to have on your recording - for example a live cello, fiddle or different voice then additional session musicians can be arranged.

NB: For all the above options please contact me for details of costs.

SMALL PRINT: As the artist I retain 100% ownership of the master recording and publishing rights for the new song. However you as the commissioning party have full rights to share, play and use the song in any non-commercial context you wish once the recording, lyrics and/or video is released to you.
